EXPERIENCE

Nick's Bar-b-que, Charleston, SC — *Head Bartender*

August 2012 - December 2016

- Responsible for inventing and mixing signature cocktails.
- Built a knowledge on a variety of bourbons, liquors and local craft beers from the Charleston area.
- Provide face to face interaction with new and returning customers.
- Capable of training new bartenders promoted internally or brought in as new employees.
- Have taken my knowledge to Atlanta, GA and Greenville, NC to open two brand new restaurants with a small team of trainers

Radio Shack, Mount Pleasant, SC — *Assistant Store Manager*

July 2011 - November 2012

- Provided fast friendly service to all customers on a variety of products, ranging from parts and cables to cell phones and televisions.
- Required to open and close the store, as well as collect and deliver the daily bank deposit.
- Responsible for training new hires on the store policies, how to use the point-of- sale system, and provide information on the products we sold.

College Lodge, Charleston, SC — *Desk Assistant*

October 2008 - May 2011

- Monitored all persons entering and leaving the Residence Hall to ensure only residents and their guests were permitted on the upper levels of the building.

EDUCATION

College of Charleston, Charleston, SC

B.S. Marine Biology - 2013

The Iron Yard, Charleston, SC

January 2017 - April 2017

- Enrolled in a 12 week intensive programming academy to gain a comprehensive understanding of front-end engineering and web development. Graduated March 31st, 2017.

Projects

Cookbook - Created an online recipe book that allows authorized users to add recipes to their own database. Users can search through saved recipes and filter based on the type of meal. In addition, I built a Google Chrome extension that allows users to add any recipe from the web to a special page in the Cookbook application.

Skills
